

Q4 What do you like about the one-story design?

Answered: 106 Skipped: 0

#	RESPONSES	DATE
1	Room for expansion in the future	9/24/2023 11:14 AM
2	having everything on one level is helpful for logistics, but I think the use of space is better with the 2-story design	9/24/2023 10:40 AM
3	No steps or elevator	9/24/2023 10:38 AM
4	see below	9/24/2023 10:17 AM
5	The spaciousness and ability to see across the floor with views of the landscape.	9/24/2023 9:48 AM
6	It seems to be a little more accessible for people with mobility issues.	9/24/2023 9:46 AM
7	I like that everything is one one level and that the sanctuary and commons are near each other	9/24/2023 9:41 AM
8	Feels spacious and open.	9/24/2023 8:37 AM
9	The overall "feel" of the space is inclusive. Somewhat longer strolls to the Sanctuary/gathering space is an opportunity to use benches and art displays for contemplative resting space.	9/24/2023 3:13 AM
10	no need for an elevator	9/23/2023 9:41 PM
11	Large open feel. All on one level, so no need for internal stairs or an elevator. Kitchen nicely placed by gathering area and RE.	9/23/2023 10:30 AM
12	Large gathering space adjacent to sanctuary is good. Overall layout is pretty good except a few small details. One-story is more accessible with no potential for long lines at the elevator.	9/23/2023 9:48 AM
13	All areas accessible on one level.	9/23/2023 9:36 AM
14	Ease, access, church as a flowing and interconnecting environment. Gracious and more gentle to approach and use. Our young ones and teens are engaged in the church directly.	9/23/2023 9:20 AM
15	Better continuity of space, better for mobility-challenged individuals	9/21/2023 10:16 PM
16	No stairs or elevators.	9/21/2023 9:24 PM
17	Much less expensive (I assume.)	9/21/2023 3:02 PM
18	I like that everything is on one level and easily accessible. I like the multi-use of rooms.	9/21/2023 12:13 PM
19	Location of gathering space and kitchen (and access for RE to kitchen)	9/21/2023 11:50 AM
20	People with mobility issues don't have to make extra effort (take the elevator or slowly manage the stairs) to access some of the spaces in the church.	9/21/2023 10:51 AM
21	Better continuity of space, better for mobility-challenged individuals	9/21/2023 9:55 AM
22	everything on one floor is easy, especially for those who face mobility challenges	9/21/2023 9:19 AM
23	I understand the benefit would be initially it would cost less	9/21/2023 6:21 AM
24	The layout is great, and no stairs.	9/21/2023 5:03 AM
25	The multipurpose area in the RE section	9/20/2023 10:15 PM
26	Nursery is not adjacent to the admin area. Like location of fireplace closer to entry. Like prominent welcome desk by the sanctuary.	9/20/2023 9:05 PM
27	Green room by sanctuary with wc. Solar panels on exterior walls.	9/20/2023 8:24 PM
28	The "silver" look and the harsh angles and broad sides of the one-story building make a strong statement.	9/20/2023 7:46 PM

September 2023 Survey for Gathering Congregation Input on Preliminary Design by Locus Architecture

29	It's a new building with new space we need!	9/20/2023 7:08 PM
30	It feels light and airy.	9/20/2023 5:29 PM
31	Pretty much everything is except the bathrooms.	9/20/2023 5:04 PM
32	The 3 sections of the sanctuary	9/20/2023 4:58 PM
33	I found the one story design simpler and more intuitive.	9/20/2023 4:55 PM
34	Looks and interior access. A lot depends on the exterior, looks-wise.	9/20/2023 4:43 PM
35	Slight elevation without being a full on upstairs and full on lower level could lead to a really nice and open design.	9/20/2023 3:31 PM
36	Everything on one level.	9/20/2023 2:04 PM
37	everything on 1 level, southern view from the upper ground level would be great. I don't like this option due to poor accessibility to lower tier, smaller parking lot footprint, and doesn't take advantage of the site topology.	9/20/2023 11:35 AM
38	I like the togetherness of the one story design. It is inviting and welcoming. All of the natural light is wonderful.	9/20/2023 10:45 AM
39	Large open area with potential ability to unify commons and sanctuary. Accessibility	9/19/2023 9:30 PM
40	every thing is on one level, no need to use stairs or elevator	9/19/2023 8:07 PM
41	The direct entrance to the gathering places.	9/19/2023 3:42 PM
42	Adjacencies to each other.	9/19/2023 3:15 PM
43	Rooms seem larger & no need for an elevator. Fewer accessibility issues.	9/18/2023 9:43 PM
44	The possibility to expand upward in the future.	9/18/2023 4:19 PM
45	Easy to navigate.	9/18/2023 2:22 PM
46	It is sleek, a clean exterior look. Interior traffic flow is logical.	9/18/2023 12:55 PM
47	No stairs. I like the fluidity and having an open green space near the sanctuary.	9/18/2023 11:16 AM
48	I like that almost all of the rooms in the building would have natural light and it looks like the sanctuary might be a bit bigger which I appreciate.	9/18/2023 9:27 AM
49	The bathroom set up, the flow from the entry to the sanctuary feels more flowy	9/18/2023 9:03 AM
50	Everyone can be on one level and people with mobility issues or disabilities don't need to navigate around using an elevator.	9/17/2023 8:50 PM
51	No elevator or stairs	9/17/2023 7:56 PM
52	Possibility of making one VERY large space spreading out from Sanctuary, if need be.	9/17/2023 4:31 PM
53	I like flex 2 right next to the sanctuary- better for choir before the service, green room, toilet right by. Better for weddings, memorial services. Seems like you could shut off the RE area for rentals or could have preschool separate from the rest of the building. More windows for RE. Flex 1 easily accessible for waiting for others. Nicer multipurpose area for RE. I like the welcome desk location.	9/17/2023 12:15 PM
54	The one story design would only be appropriate for a property that was level across the whole building site, which is not the case here.	9/17/2023 10:48 AM
55	See answer #2	9/17/2023 9:43 AM
56	Everything is one one level	9/16/2023 11:25 PM
57	I like the bigger sanctuary and potential for natural light and the welcome desk.	9/16/2023 8:45 PM
58	It seems more spacious. The sanctuary looks bigger, the gathering space looks bigger.	9/15/2023 9:07 PM
59	Positioning the Faith Development rooms near the east drop off location would make it easier to operate a day-care in that portion of the building.	9/15/2023 6:21 PM

September 2023 Survey for Gathering Congregation Input on Preliminary Design by Locus Architecture

60	No elevator. All areas are open. This is the goal of the new building.	9/15/2023 3:48 PM
61	Everything is on one level No stairs needed	9/15/2023 3:40 PM
62	Pros: Presumably the price tag. ADA compliance. Cons: Won't it always make the visitor wonder "what might have been?" [Like the Walden building now makes us ask "Why?!"]	9/15/2023 3:23 PM
63	It keeps everything on one level and best allows for the common area to be close to the sanctuary.	9/15/2023 2:40 PM
64	Low profile and design harmony with contour of land.	9/15/2023 2:01 PM
65	eliminates stairs & elevators	9/15/2023 1:29 PM
66	I no elevator, no stairs. Largely accessible footprint.	9/15/2023 12:44 PM
67	It's a beautiful building, like the two-story. I would be comfortable with a one-story as a plan B.	9/15/2023 12:37 PM
68	More accessible	9/15/2023 12:35 PM
69	No need for elevator and easier accessibility. Walk out to terrace. Cost... I like the classrooms open to a multi purpose space and exit to the outside.	9/15/2023 10:08 AM
70	The open space of the narthex, especially the curved walls and welcome desk. Kitchen location allows for easier access to an exterior door. The multipurpose space within the classroom area giving the most flexibility to groups meeting there, children and/or adults.	9/15/2023 9:48 AM
71	It's more attractive and has no stairs.	9/15/2023 9:48 AM
72	The welcome table and the curved wall.	9/15/2023 9:46 AM
73	All 1 level	9/15/2023 9:28 AM
74	The spillover area outside the sanctuary and the ways the design pulls you in toward the larger terrace and view.	9/15/2023 9:27 AM
75	simple, no stairs or elevators	9/15/2023 8:53 AM
76	Nothing. There is more to a building than the floor plan	9/15/2023 6:40 AM
77	I like the shape of the sanctuary, the absence of an elevator to maintain, the sanctuary and commons on the same level, and the multi-use space between the RE classrooms.	9/15/2023 6:20 AM
78	I like having everything on the same level	9/15/2023 12:28 AM
79	Love the gender-inclusive restroom floor plan/layout, like that RE rooms are on East side of building- get that morning sunshine, also love the flow from north-entrance to sanctuary and downstairs, also love that Flex 2 and music office are together!!!	9/14/2023 11:08 PM
80	It's "compactness" (to fit the terrain better!?)	9/14/2023 9:45 PM
81	It provides a better functional co-location of the gathering space and the kitchen for social activities and large gatherings that require or could benefit by making food available.	9/14/2023 9:34 PM
82	No need for an elevator. Easy access for disabled folks. No 'church basement'	9/14/2023 9:11 PM
83	Sanctuary appearance	9/14/2023 9:08 PM
84	Sanctuary appearance	9/14/2023 8:41 PM
85	Open space	9/14/2023 7:34 PM
86	More flow and connection.	9/14/2023 6:26 PM
87	no need for elevators	9/14/2023 6:24 PM
88	It seems more spacious. The sanctuary looks bigger, the gathering space looks bigger.	9/14/2023 6:23 PM
89	In addition to my comments in Question 2 (please refer to that question), I like that the sanctuary is bigger than in the two-story design, so can accommodate more people at each service. I also like that the one-story design has an RE multi-purpose area, which I'm not seeing in the two-story design. I think that having a multi-purpose RE area for our youth is important. Also, the one-story design gives teens an area of their own that is a bit removed	9/14/2023 5:35 PM

September 2023 Survey for Gathering Congregation Input on Preliminary Design by Locus Architecture

from the younger RE classes, which the two-story design doesn't afford, a distance that I think that teens will appreciate.

90	I like the bathroom connect in the "green room" - music room. I like were the welcome table is located. like that RE classrooms could change space (walls).	9/14/2023 5:27 PM
91	One of the good ideas about the one-story design: the overflow features with allow us to have more space for special services (i.e., Christmas Eve), as well as other gatherings (i.e., the Annual Meeting	9/14/2023 5:06 PM
92	More impressive on the large piece of land. Easier to access all areas.	9/14/2023 4:55 PM
93	No opinion	9/14/2023 4:48 PM
94	Spaciousnes	9/14/2023 4:42 PM
95	Not much...even sanctuary does not have real high ceilings or enough windows	9/14/2023 4:26 PM
96	I liked that the sanctuary and the gathering spaces were immediately available upon entry. There was no need to search for anything as it all seemed to be well arranged and where one would expect to find things.	9/14/2023 4:25 PM
97	As above	9/14/2023 3:42 PM
98	Easy accessibility and moving things around	9/14/2023 3:30 PM
99	-	9/14/2023 3:20 PM
100	Single level without stairs and elevator.	9/14/2023 3:18 PM
101	Accessibility	9/14/2023 3:16 PM
102	Accesability and ease of suppling the kitchen.	9/14/2023 3:12 PM
103	Classrooms that connect to the outdoors. Gathering space that connects to outdoors Bathroom design	9/14/2023 3:11 PM
104	nice to have everything all on one floor / together; like the classrooms all around a multi-purpose space	9/14/2023 3:11 PM
105	Clearly more accessible to those with mobility challenges.	9/14/2023 3:08 PM
106	Welcome desk and curved wall.	9/14/2023 11:35 AM
